Eriez' New Literature Highlights *EriezXpress*[™] Next-Day Shipment Program

Eriez[®] introduces new literature featuring the convenient *EriezXpress*[™] program. The literature explains that through the *EriezXpress* program, many of the company's most popular products are available for next day shipping.

"When you need help with product purity or a controlling or conveying problem, and you need it right now, then *EriezXpress* is the answer," said Mike Latimer, Eriez' Manager of Market Development. According to Latimer, upon customer credit approval, orders for select Eriez products received by 4:00 p.m. EST will be processed and shipped the next business day.

The *EriezXpress* program streamlines the order-to-shipment process by simplifying product ordering, modifying inventory control and designating a dedicated service team. Products in this program are always in stock, with most shippable by air freight, upon request.

The literature provides descriptions and photos of all Eriez products available through *EriezXpress*. Products in this line available for next day shipping include plate magnets, grates, traps, small coolant cleaners and lifting magnets, high speed vibratory feeders, bin vibrators and magnetic rolls.

To download a free copy of the *EriezXpress* brochure, visit www.eriez.com

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through eleven international facilities located on six continents.
